

BUDDY2 Quick Start

Dear users:

To get BUDDY2 started, please do the following operations:

Step 1

Connect the product to your car OBD interface. You can find the light will flash (it shows the Connection is good) , then it comes into standby and is waiting for working. Usually the OBD interface is under the steering wheel (above the brake), some are hidden in the tool box of the hand brake, you can refer to the following picture.

Step 2

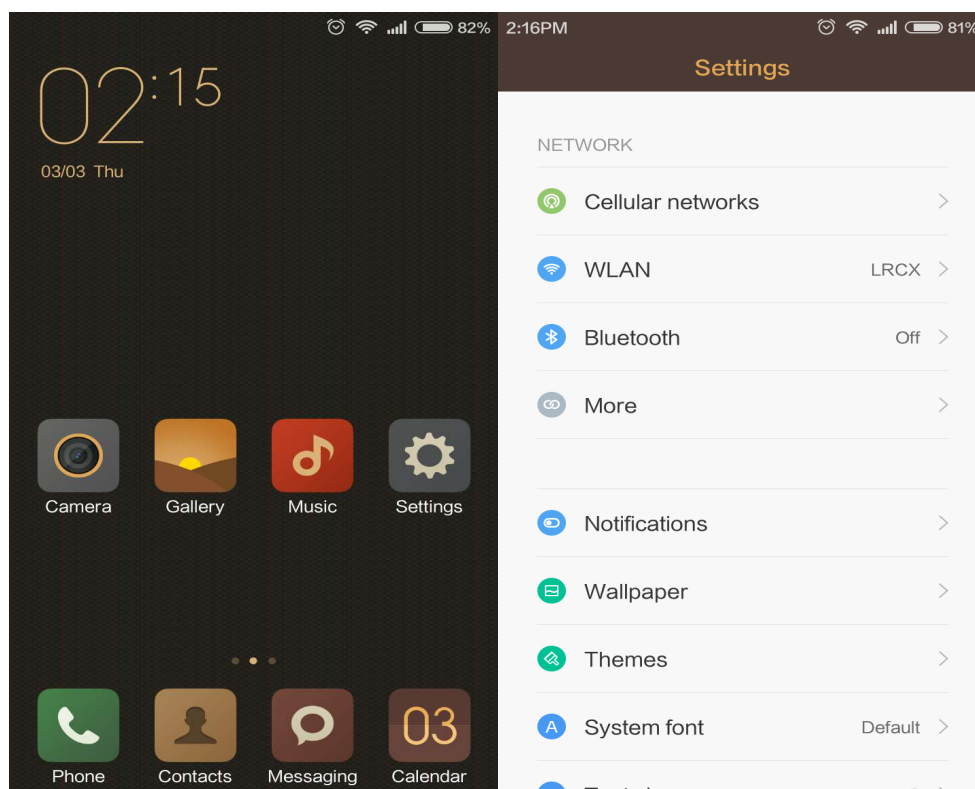

Download and install BUDDY2 App to your mobile phone.(only for Android)

There are two ways to get it:

1. From our website: www.leoscan.eu
2. Search the key word “leoscan” in the Google Market.

Step 3

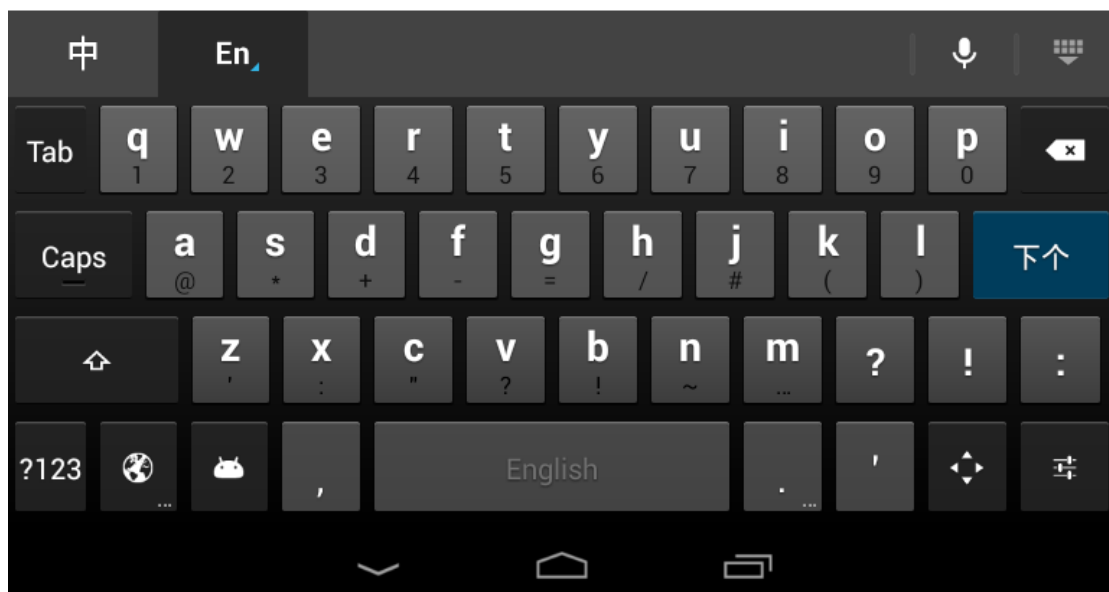

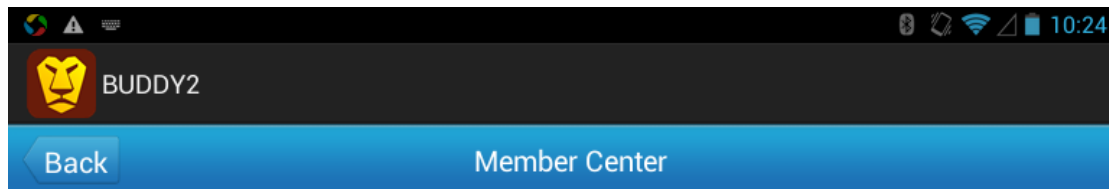

On your mobile phone, click **Settings – Bluetooth** and turn on the Bluetooth.

Step 4

Open the BUDDY2 App in your mobile phone.

The page is shown as follows when the App is opened for the first time:

If you have not registered, please click [Not a member? Sign up now.](#) to register first. The registration page is as follows:

Enter all the information needed and click the **Sign up** button to finish the registration (Please remember the email and password you entered).

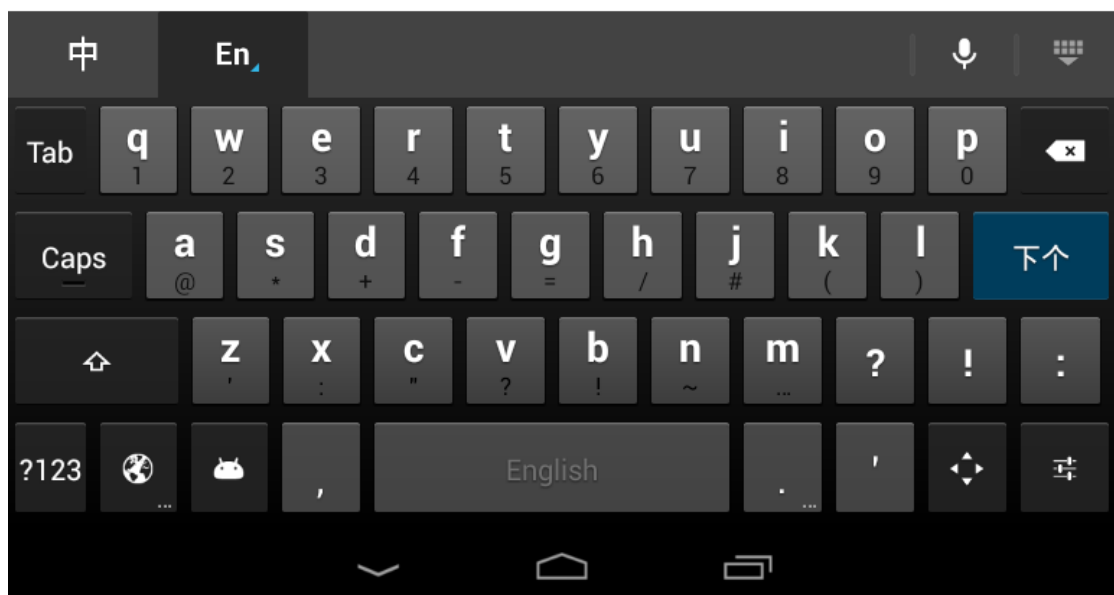

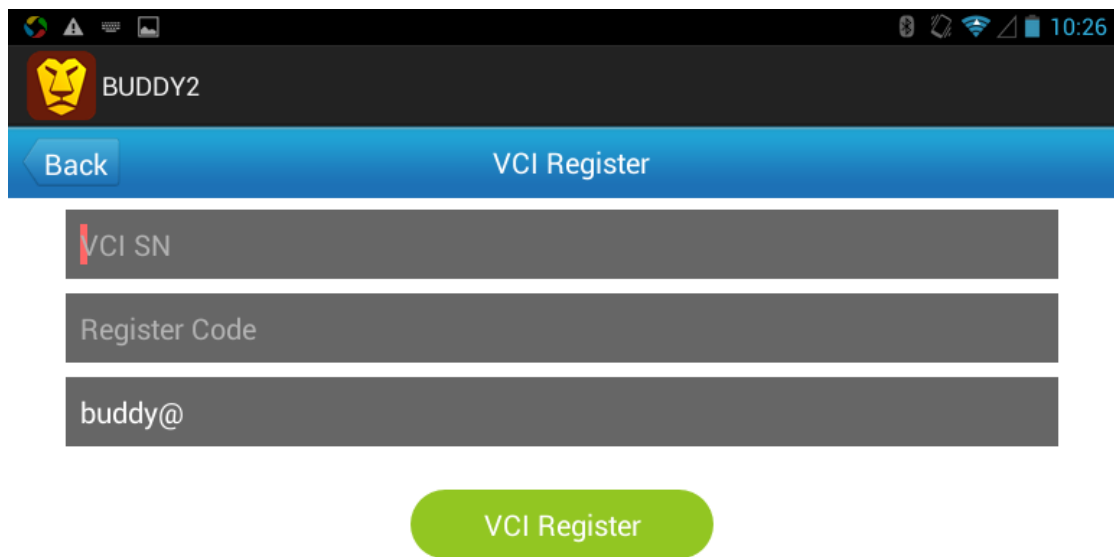

Then, the page automatically switches to the login interface.

The screenshot shows the BUDDY2 Member Center login page. At the top, there is a header with the BUDDY2 logo and the text "BUDDY2". Below the header is a blue bar with a "Back" button and the text "Member Center". The main content area contains two input fields: "Email" with an envelope icon and "Password" with a lock icon and a toggle eye icon. Below the password field is a yellow "Sign in" button. Underneath the button is a checkbox labeled "Remember Me". At the bottom, there is a green button with the text "Not a member? Sign up now."

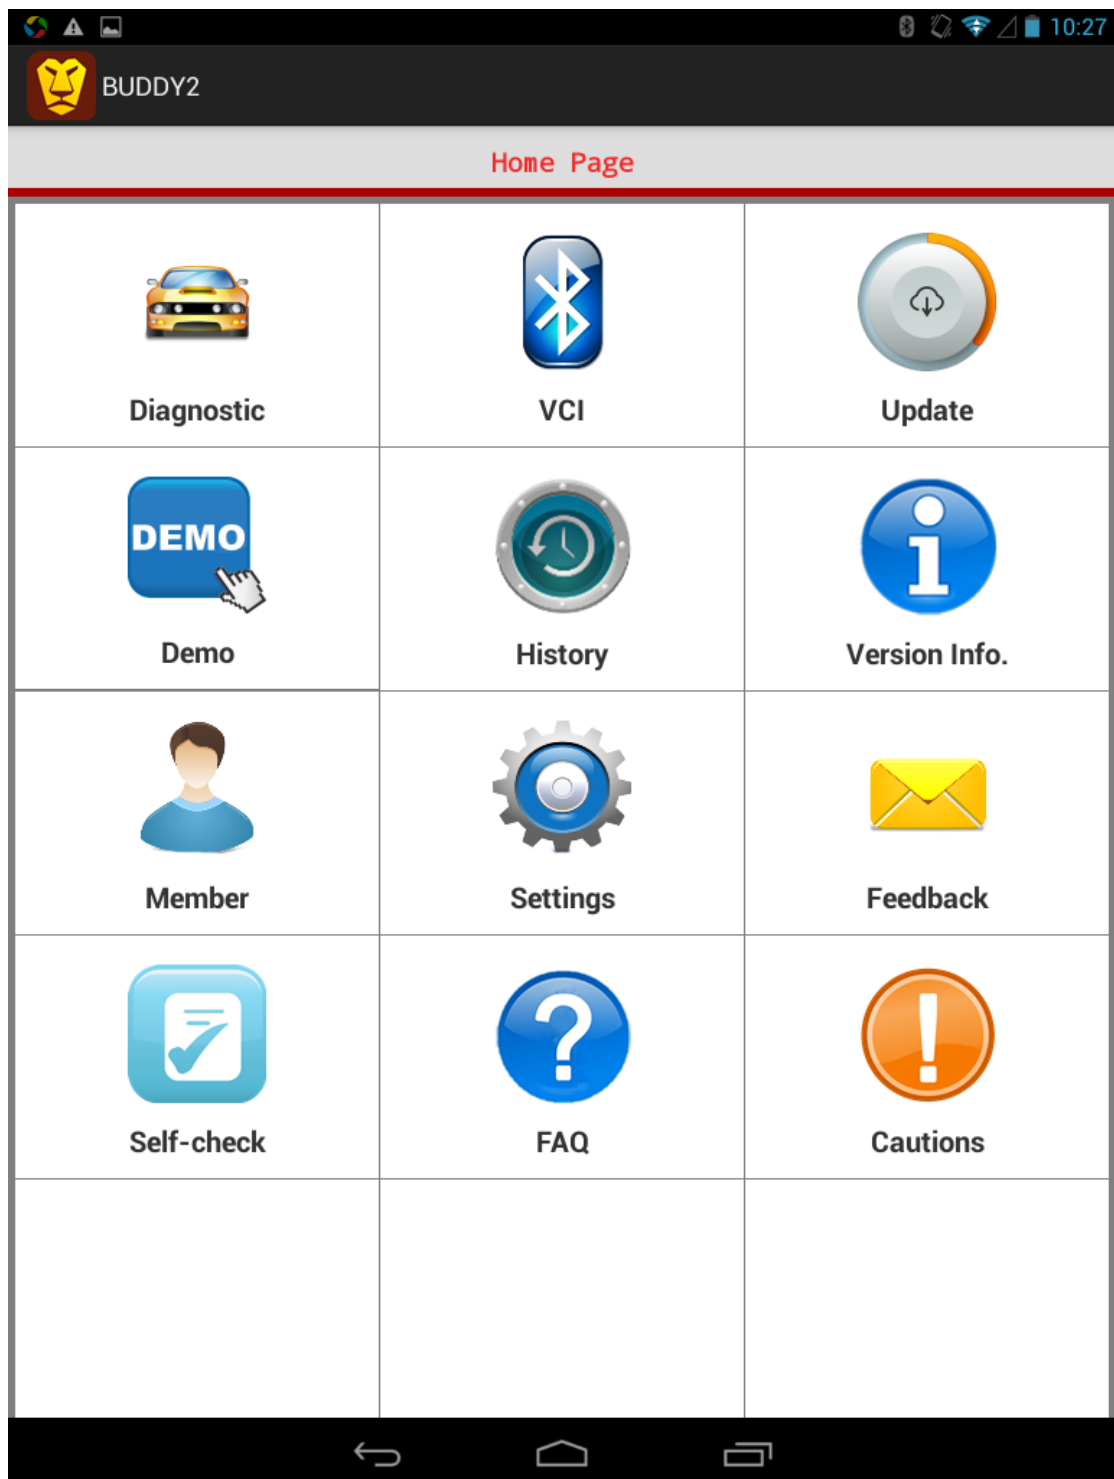

Enter the email and password used during the registration and click **Sign in**. After a successful sign-in, the page automatically switches to the VCI Register interface, as shown in the following picture:

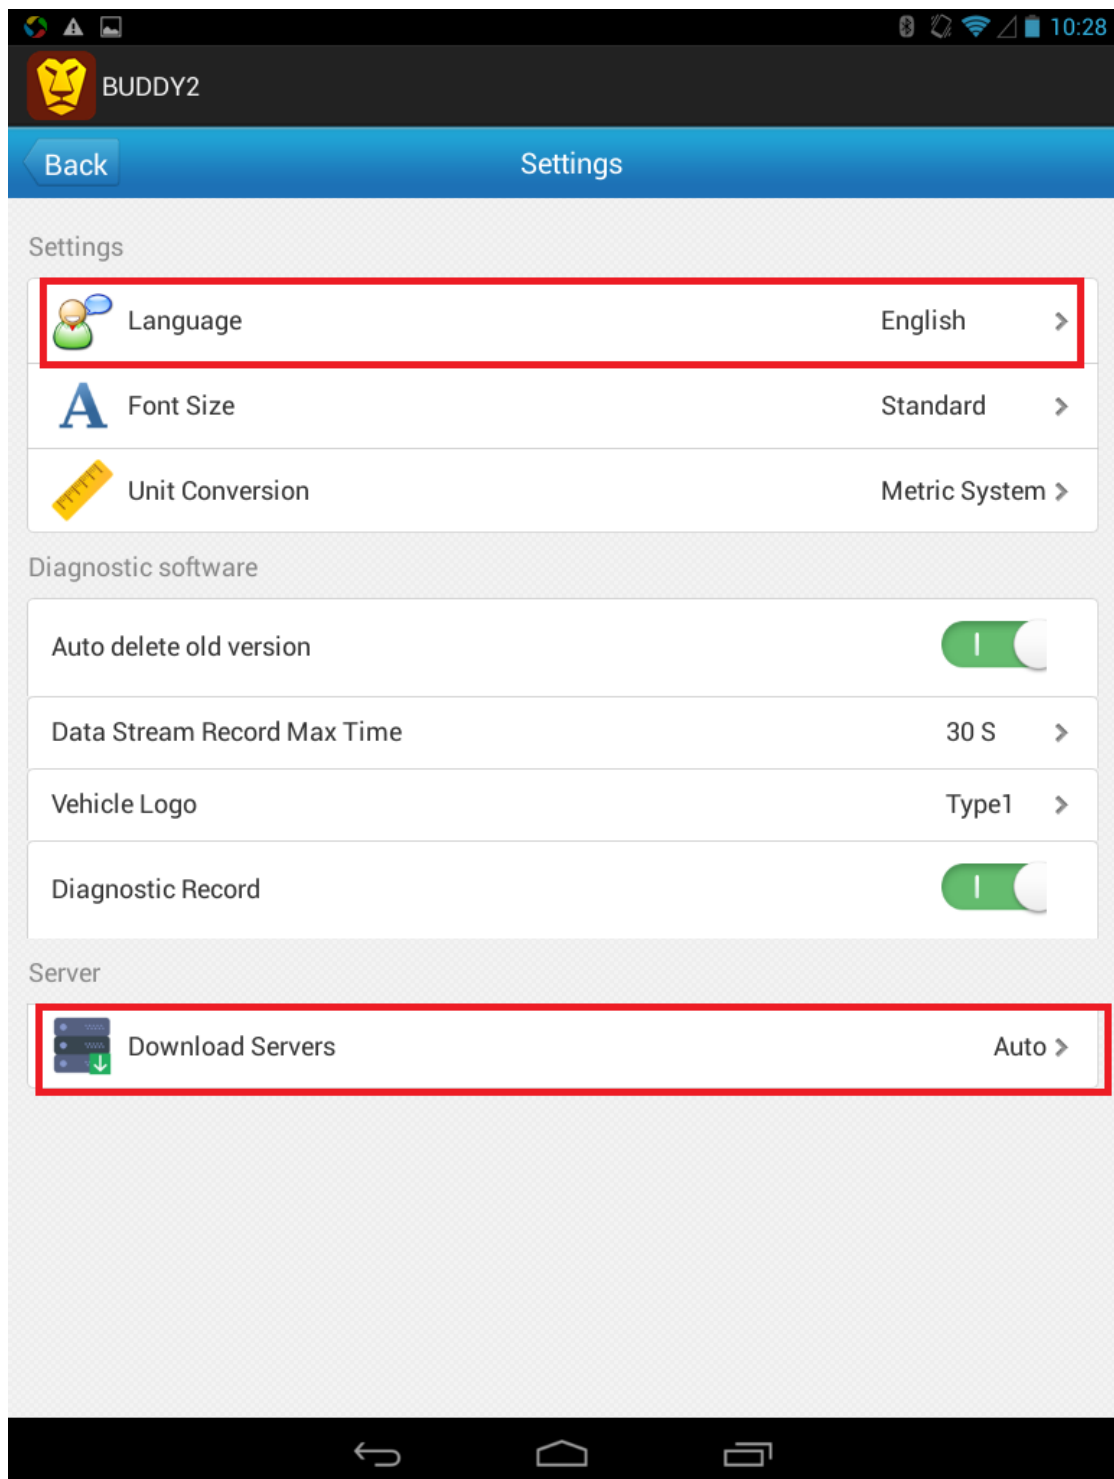

Enter the correct S/N and Register Code shown in the REGISTERCODE CARD and click **VCI Register**.

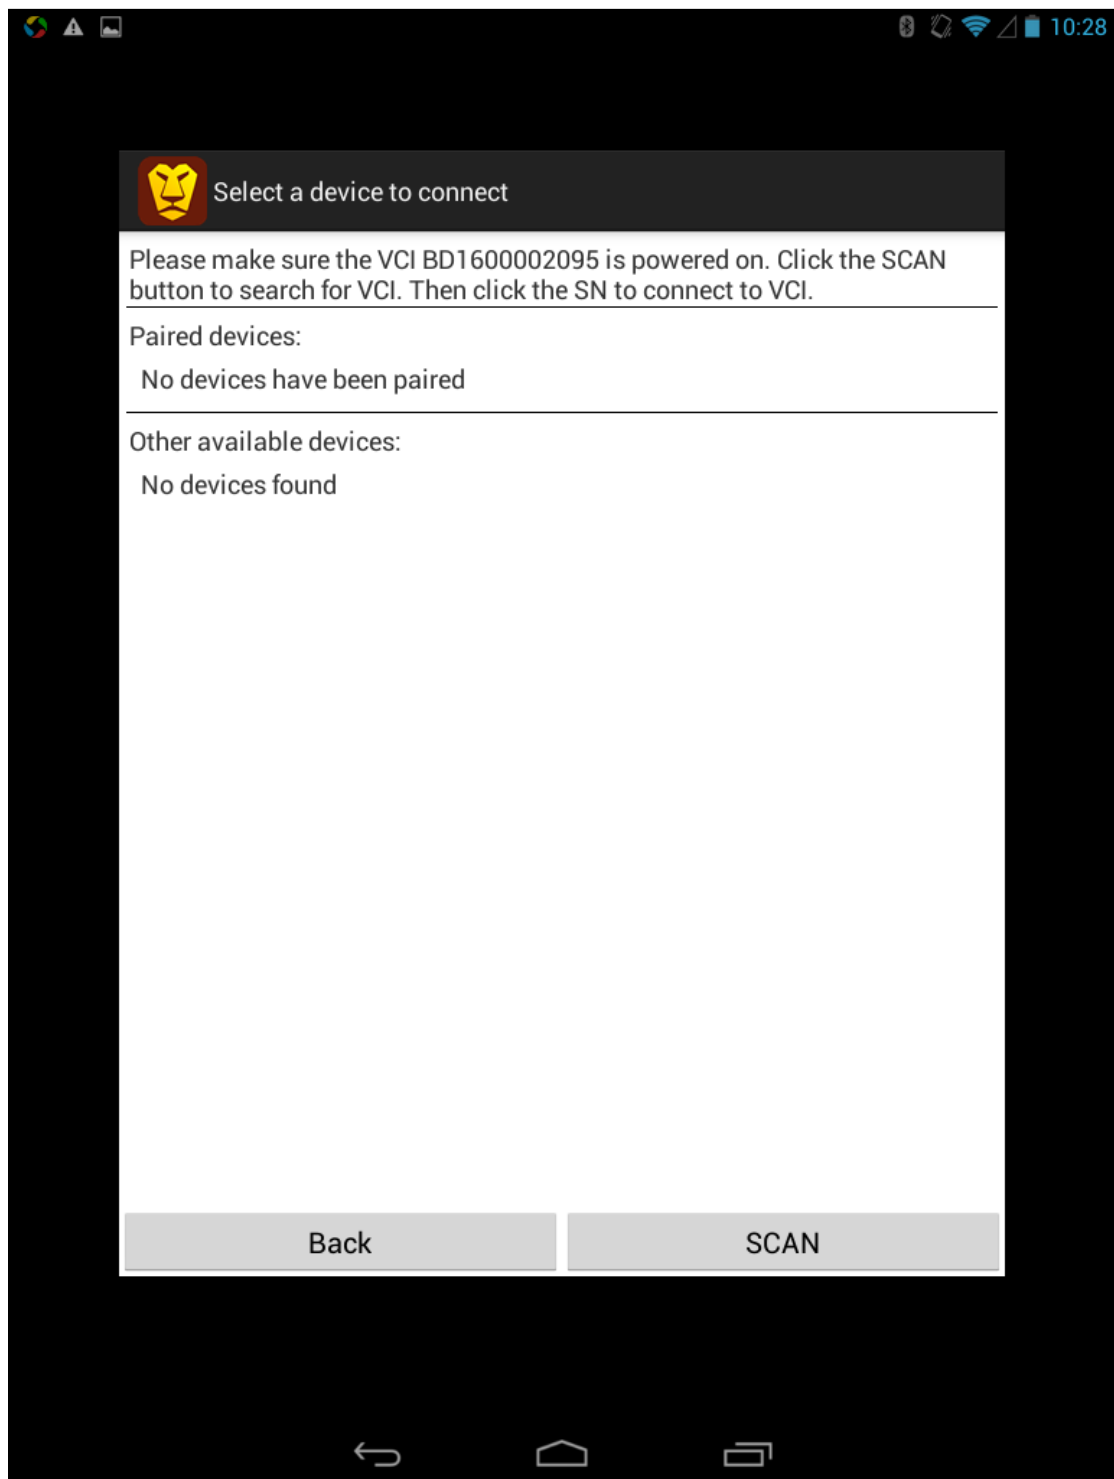

The Home Page is shown automatically after the VCI is registered successfully.

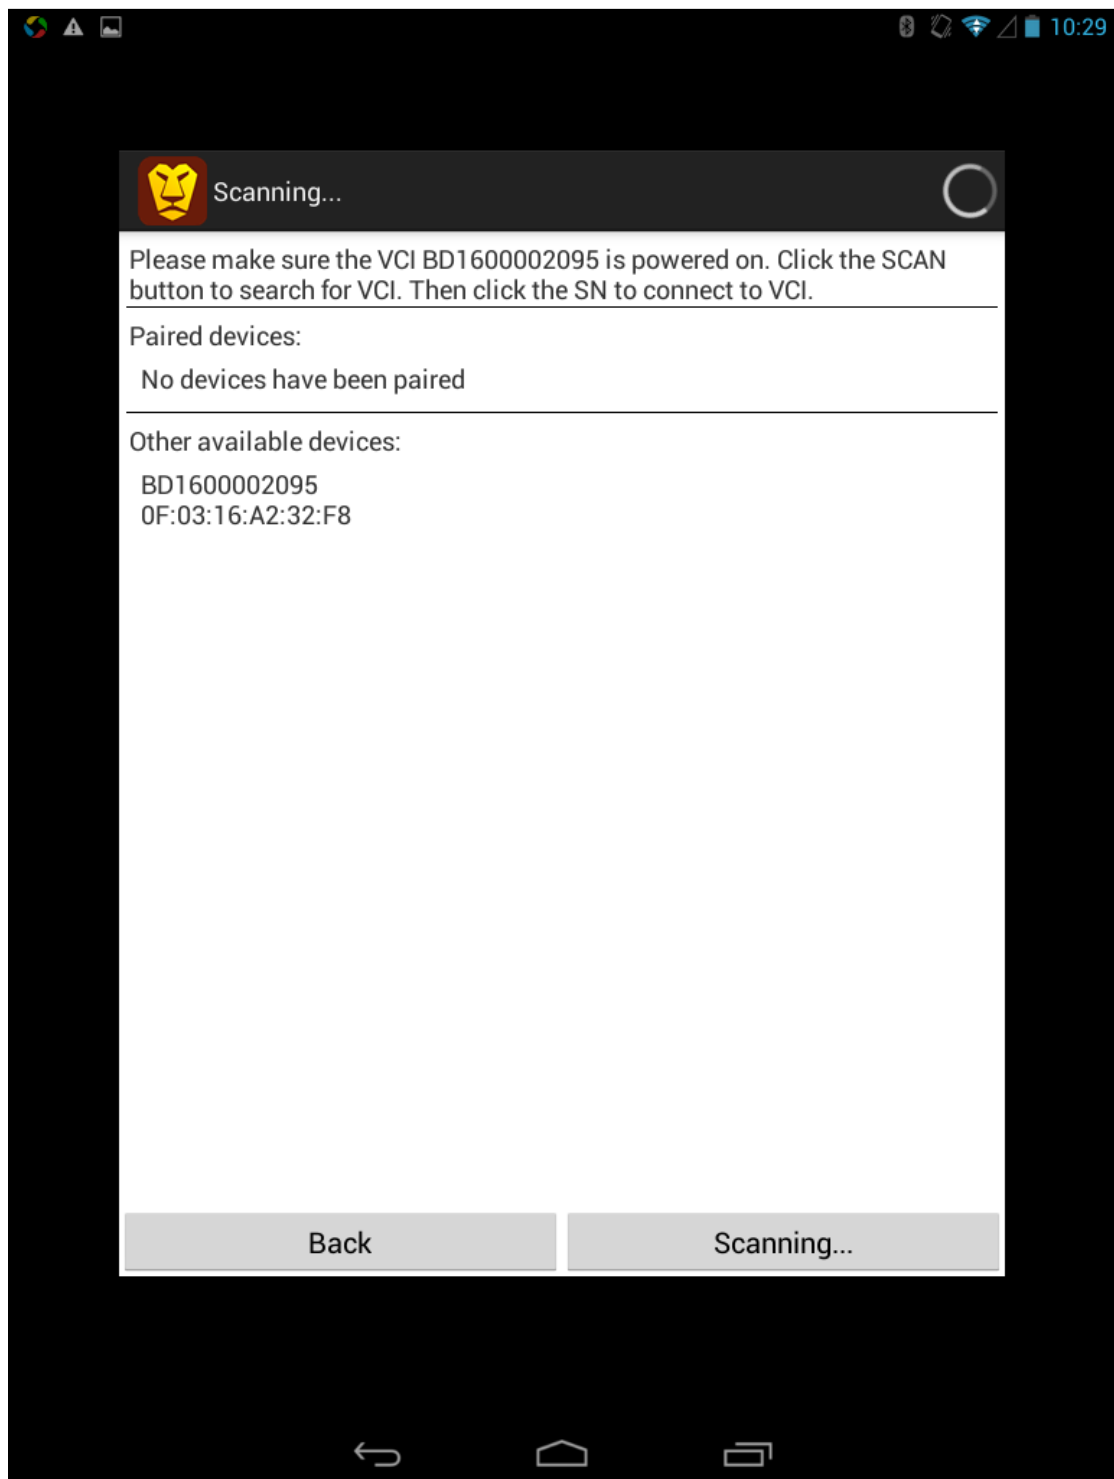

You can click **Settings – Language** to select language or click **Settings – Download Servers** to select the server needed for software download.

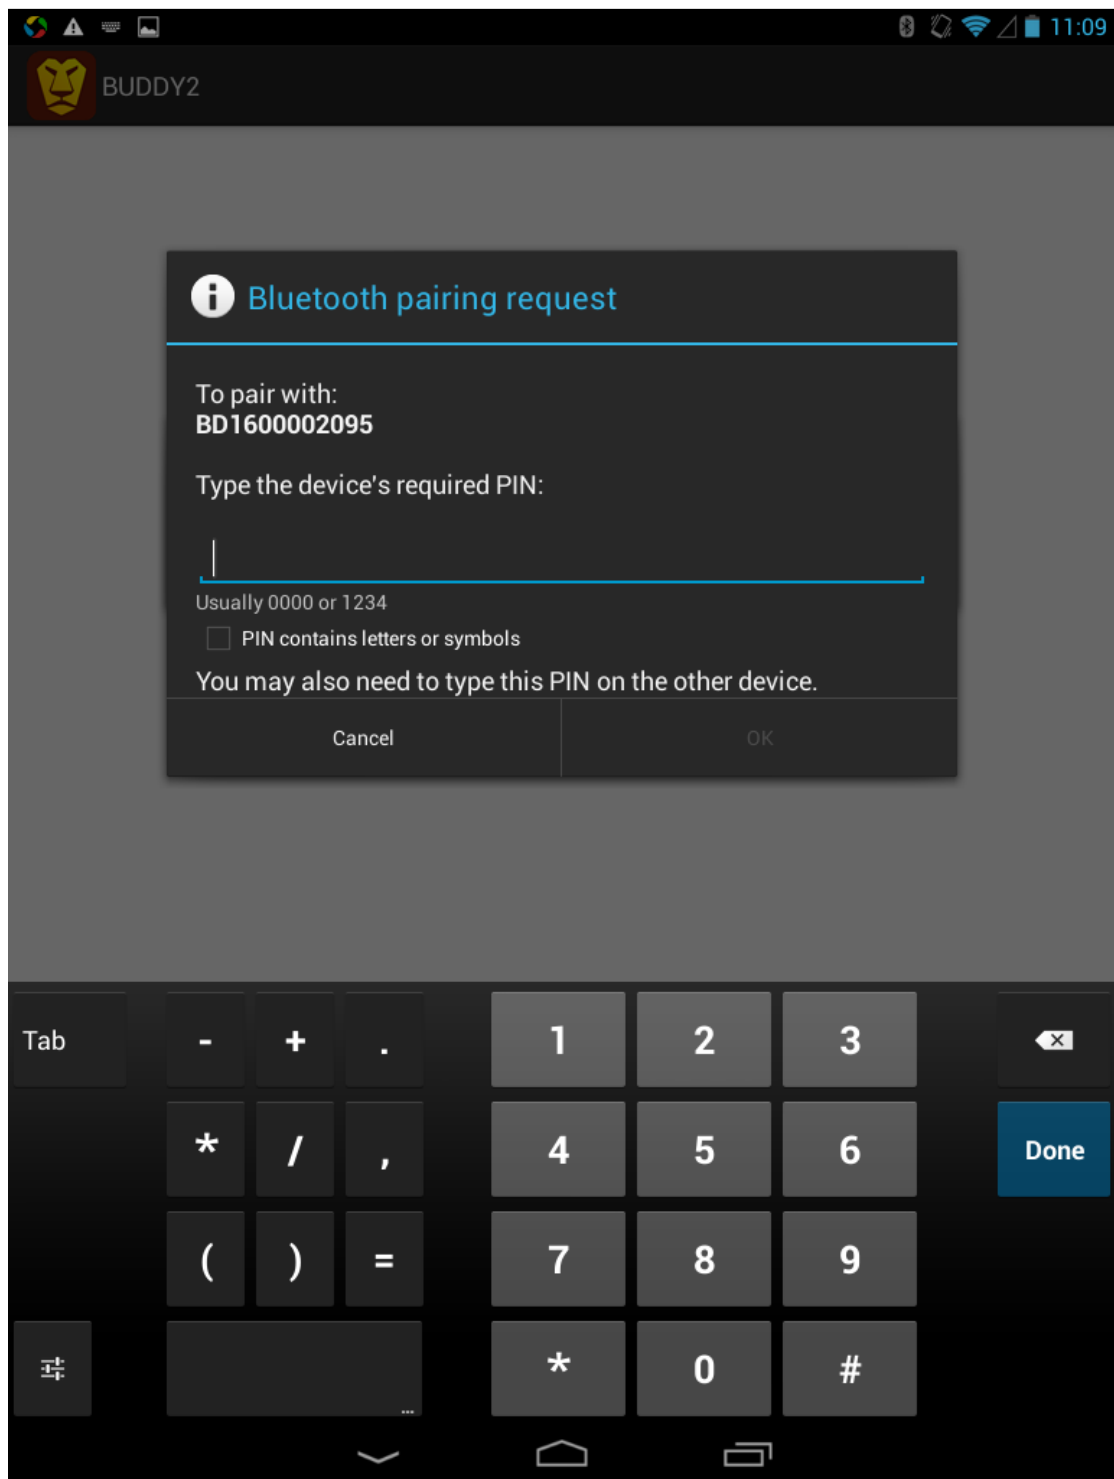

Back to the Home Page and click the **Diagnostic** menu. The VCI connection page is displayed automatically, as shown in the following picture.

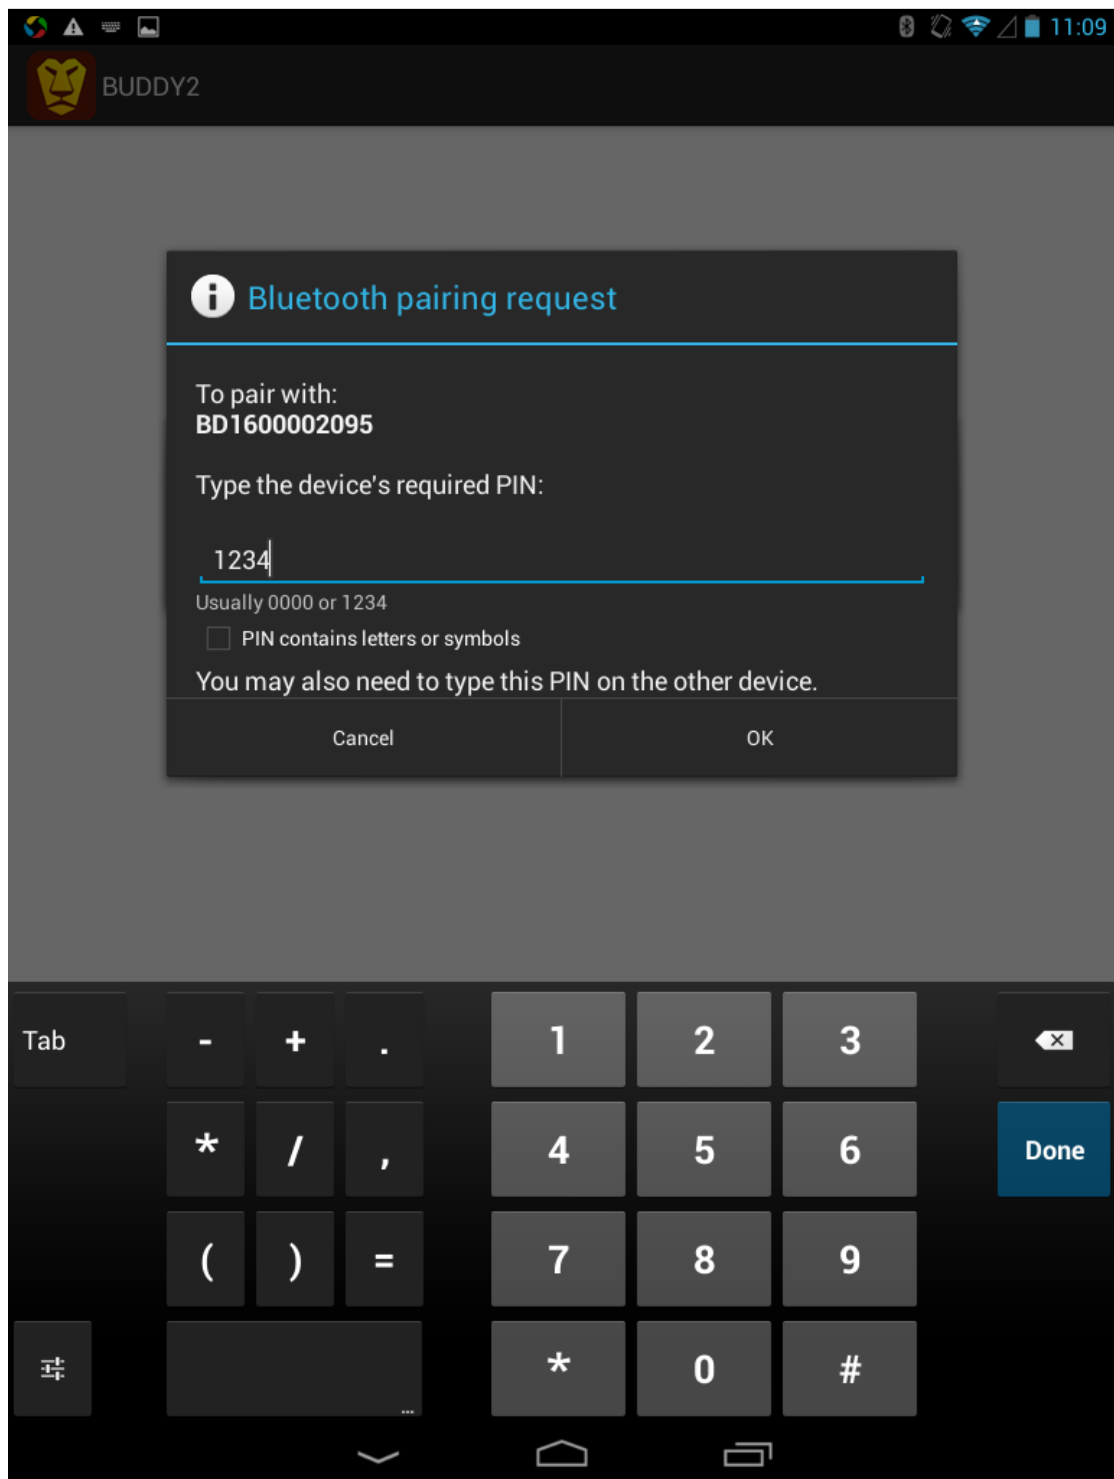

After making sure that the VCI has been powered on, click **SCAN** to search for the registered VCI, as shown in the following picture:

Click the VCI S/N displayed after scanning. Then, an interface is displayed as shown in the following picture:

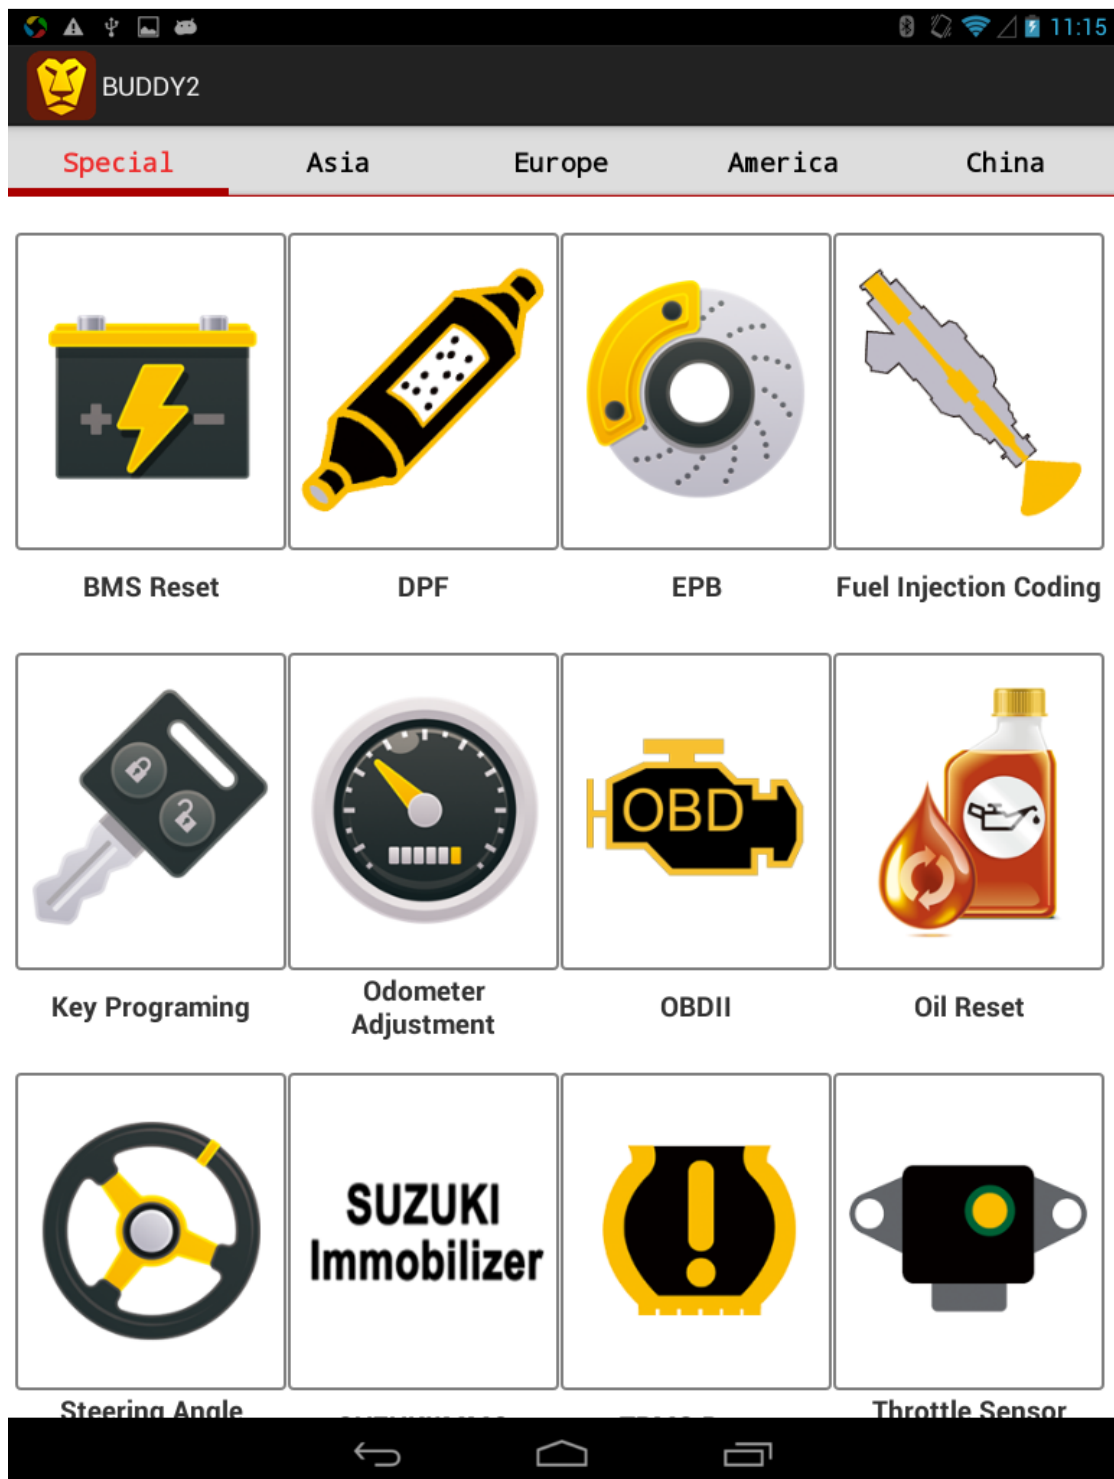

Enter the PIN code 1234 and click **OK**.

A message is displayed indicating that you have connected to your VCI.

Then, you switch to the **Special** page automatically, as shown in the following page:

Step 5

If you choose this brand for the first time, you need to download the

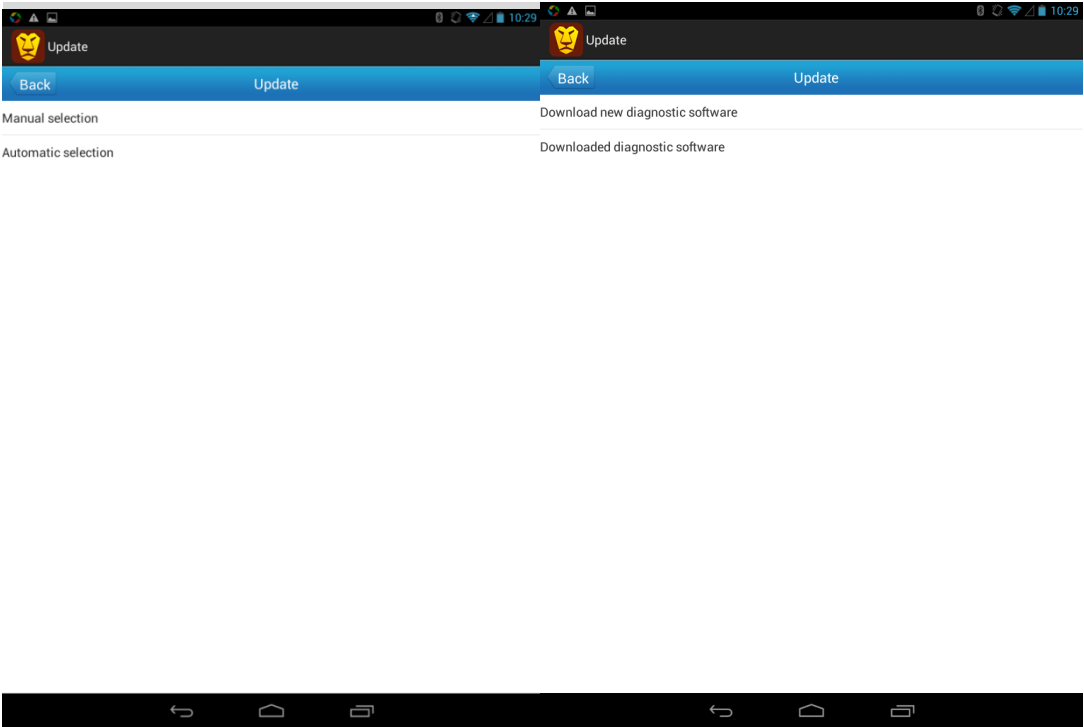

diagnostic software first.

There are two ways to download the diagnostic software:

1. Click the brand and download corresponding version directly.

2. Return to the Home Page, click the **Update** menu to download software.
